A **written** work order secured by the occupant and/or the building owner and presented to the inspector with an agreed upon completion date to correct the fire code violation will serve in place of the next re-inspection fee. If the work order is not completed by the agreed upon date, the corresponding re-inspection fee will be charged and another re-inspection scheduled.

Based upon the seriousness of the violation, the re-inspection interval may be altered by the Fire Inspector.

Construction re-inspection intervals may vary from the normal annual maintenance inspection schedule as determined by the Fire Inspector.
